

The American Lead Poisoning Help Association Inc. (ALPHA) released the 1st edition of Today's NEW Lead: Sources You May Already Own[®], a 127-slide Power Point presentation, complete with color images of recalled items and on-line information from September 24, 2007 through June 2000. The slideshow is designed to be used at health fairs, waiting rooms or other outreach education opportunities; it automatically advances every 12 seconds (total running time 25 minutes), and it runs in a continuous loop. The ALPHA Lead Recall CD will play on computers running Microsoft Windows 98 Second Edition or later, even without Power Point.

This CD is a wonderful resource that can be used with non-English speaking as well as English speaking clients to identify additional sources of lead in the home. The slideshow will be updated semi-annually to include the latest recalls, with **the 2nd Edition planned for April 2008/Charleston conference.**

Founded in 2005, ALPHA is an award-winning national support network for families affected by lead; our mission is to raise awareness about lead poisoning. ALPHA is pleased to offer this CD as a free gift for a minimum \$10 donation (plus \$2 shipping and handling) to help offset start-up costs. Please return the bottom of this form, along with your payment to the American Lead Poisoning Help Association, Inc. Thank you for your support!
